

PANICLE
WORLDWIDE

Introduction

Panicle Worldwide is a leading Peanut Butter manufacturing and exporting organization. As a leader in Peanut Butter manufacturing, we believe it is our moral responsibility to ensure that our customer gets the best Peanut Butter and satisfaction is guaranteed.

All our processes are designed keeping this end result in mind.

We source the best Peanuts from the region of Saurashtra, India.

These Peanuts are hand sorted to ensure that there are no microbial, chemical or physical inadequacies which may impact the final quality of Peanut Butter and its shelf life.

Manufacturing Facility and Quality Assurance

Panicle Worldwide has a state-of-the-art-facility in India, which is equipped with the best imported machinery, to ensure the perfect color, taste, texture and nutrition of the Peanut Butter.

Our laboratory is technically equipped to with the latest equipments which are constantly used for research and Quality control activities by our expert team. All components of Peanut like Aflatoxin, moisture and microbiological factors are constantly monitored to ensure premium quality for the finished product.

The Benefits of Indian Peanut Butter

1. Indian Peanut Butter is a combination of the goodness of Indian Peanuts and organically sourced ingredients that give consumers a delicious spread, which offers both supreme taste and nutrition.
2. Every single Jar of finished product goes through a rigorous quality testing process before it reaches your homes.
3. This high protein diet of Indian Peanut Butter can help you manage your weight in the most optimum way.
4. Mineral rich and high in Fiber, Indian Peanut Butter is perfect to maintain a healthy and energetic life style.
5. With Zero cholesterol and only good fats available, Indian Peanut Butter is the perfect food for a healthy heart.

Private Label Process

The following chart illustrates the process of starting your own brand with our Private Label Process:

PRODUCTION

Once the artwork is approved by the client, our production team starts the manufacturing process. The production of clients' peanut butter is monitored by our Quality Control Team so as to ensure that the end product meets the clients' requirements.

SAMPLE APPROVAL

Once confirmed, samples are manufactured in our factory as per specifications provided by client and the same samples dispatched to clients for approval.

ARTWORK

Once samples are approved by the client, Artwork process is initiated. In case client has the artwork ready, they are requested to send it across to us or else, we are also capable of creating artwork for the client with our in-house designing team.

LOGISTICS

Once the production of the clients order is completed, our logistics team dispatches the product according to the terms approved between Panicle Greenmile and client. Once successfully delivered, clients' peanut butter is ready to hit the markets.

APPLICATION

Upon receipt of Private labeling request from client, team furnishes specifications of minimum order quantity, products, packaging & timelines to client. Client confirms as per their requirements.
